As directed by the Patron DARC, CDA, Secunderabad, this office is organizing Blood Donation Camp in association with **Indian Red Cross Society, Hyderabad** at **Main Office premises on 29.6.2017 from 10.00 AM onwards**. In this connection, interested members of DARC are requested to participate in the Camp.

*It is intimated by the Red Cross, Hyderabad that "the donated blood is mainly used for thalassemia children, a genetic disorder where the children get affected from their parents. In them, there is no formation of red cells from the bone marrow like us. They have to be transfused with red cells every 21 days till their survival. Nearly 1000 thalassemia children are registered in our blood bank. Daily 30-40 children are given free blood and free transfusion in our blood bank."*

The contents of the Circular may be brought to the notice of all the members of DARC and encourage them to participate for a noble cause.
