**1. Background**

Offices and other workplaces are relatively close settings, with shared spaces like workstations, corridors, elevators & stairs, parking places, cafeteria/canteens, meeting rooms and conference halls etc. and COVID-19 infection can spread relatively fast among officials, staffs and visitors.

There is a need to prevent spread of infection and to respond in a timely and effective manner in case suspect case of COVID-19 is detected in these settings, so as to limit the spread of infection.
