Sub: Downloading of Sectional Compilation

With reference to subject matter under consideration, it has been viewed recently that many controllers are downloading the sectional compilation during month end before the finalization of RDR, as a result of which, there is discrepancy in data compiled as shown to the controller offices.

Therefore, during last days of the month, it is requested to download the final sectional compilation only after display of notification on NCS portal displaying "Books for the month has been closed. RDR prepared. Reports may be downloaded."
